DECLARATION OF MICHELLE ROMERO

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

I, Michelle Romero, in support of the filing of the above-referenced patent application pursuant to 35 U.S.C. § 116, second paragraph, and § 118 and 37 CFR § 1.47, declare as follows:

1. I, Michelle Romero, am a Patent Administrator at Altera Corporation of San Jose, California ("Altera"). My job responsibilities regularly include forwarding patent applications to inventors who are current and past employees of Altera for execution of formal filing papers and assignments. I also work with Altera's Human Resources and other departments that deal with inventors' employment contracts and the like. This declaration is offered to show that Mr. Aquada an inventor in the above-referenced patent application, refuses to sign the "application papers" (described below) and the proprietary interest of Altera in said patent application.

2. On January 8, 2004, I forwarded to Mr. Aguada a complete copy of the "application papers" including the drawings, specification and claims of the application and the formal filing papers including the Declaration and Assignment in above-referenced patent application entitled, "A Novel Method for Die Removal from Plastic Packages", a copy of which is attached to this Declaration as Exhibit A. A

copy of the Federal Express receipt and a copy of proof of delivery are also included with Exhibit A, I sent the papers to Mr. Aguada's last known address:

Mr. John Aguada
1746 Mirabella Court
Milpitas, CA 95035

3. On Thursday, January 22, 2004, I called Mr. Aguada and left a message to please return my call. I received no response. I then called Mr. Aguada on Thursday, January 29, 2004 and left another message to please return my call. I again received no response. I also called Mr. Aguada on Wednesday, February 11, 2004 and left another message. I received no response. I then called Mr. Aguada on Sunday, February 22, 2004 and spoke to a Ms. Delacruz, she said Mr Aguada was not home at the moment and but did verify that the address I sent the package to was the correct address for Mr. Aguada. I told her that I would resend the documents for Mr. Aguada's signature and I left her my phone number if he had any questions.

4. On Monday, February 23, 2004, I forwarded to Mr. Aguada another complete copy of the "application papers" including the drawings, specification and claims of the application and the formal filing papers including the Declaration and Assignment in above-referenced patent application entitled, "A Novel Method for Die Removal from Plastic Packages", a copy of which is attached to this Declaration as Exhibit B. A copy of the Federal Express receipt, a copy of proof of delivery and a copy of the return shipment label are also included with Exhibit B.

5. On Tuesday, March 2, 2004, Mr. Aguada telephoned me at my office at Altera in San Jose, California to tell me that he had received the patent application, formal papers and assignment, and that he would like to sign the Oath/Declaration or the Assignment but he thought that he was owed somewhere between \$3,000 to \$4,000 dollars for his signature. I told him that since he was no longer an employee that the bonus was not applicable. He seemed okay with the answer and he said he would sign the documents and return them to me the next day. I never received them.

6. On Friday, March 5, 2004, I called Mr. Aguada and left a message to return my call. I have received no response.

7. A true and correct copy of Mr. Aguada's "Employment Confidential Information, and Invention Assignment Agreement" is attached to this Declaration as Exhibit C.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true. I further declare that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both (under Section 1001 of Title 18 of the United States Code), and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
